Rehab Week September 13-19, 2020

This year, more than ever, we are excited to celebrate Rehab Week and to recognize our partners and team members for their hard work, dedication and continued focus on delivering excellent care to help patients meet their rehabilitation goals.

We understand the challenges that come with new healthcare trends and obstacles, and that is why we continually look forward to providing you with the support needed to maintain positive facility and patient outcomes through the latest innovative tools, updated programming and enhanced educational services so that you and your team can provide ongoing essential care to those you serve each and every day.

This week is here to highlight the amazing accomplishments your team and therapy program has achieved, as well as further showcase the vital need of therapy services to people of all ages and wellness levels – something 2020 has already done.

Additionally, the services and programs you provide would not be the success they are today without the amazing work and compassion brought on by each staff member. For that, we wish you a happy Rehab Week and thank you for all you do as a partner to ensure the health and safety of your patients and community!
